this two volume set presents a comprehensive and up to date history of eighteenth century philosophy the subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted

sixteenth century philosophy was a unique synthesis of several philosophical frameworks a blend of old and new including but not limited to scholasticism humanism neo thomism aristotelianism and stoicism unlike most overviews of this period the routledge companion to sixteenth century philosophy does not simplify this colorful era by applying some traditional dichotomies such as the misleading line once drawn between scholasticism and humanism instead the companion closely covers an astonishingly diverse set of topics philosophical methodologies of the time the importance of the discovery of the new world the rise of classical scholarship trends in logic and logical theory nominalism averroism the jesuits the reformation neo stoicism the soul s immortality skepticism the philosophies of language and science and politics cosmology the nature of the understanding causality ethics freedom of the will natural law the emergence of the individual in society the nature of wisdom and the love of god throughout the companion seeks not to compartmentalize these philosophical matters but instead to show that close attention paid to their continuity may help reveal both the diversity and the profound coherence of the philosophies that emerged in the sixteenth century the companion s 27 chapters are published here for the first time and written by an international team of scholars and accessible for both students and researchers

readings in the history of philosophy is organized chronologically thus each volume may be used independently as introductory comparative or reference material in a wide range of courses in philosophy and humanities taken together these eight volumes form an integrated series that skillfully illustrates the contributions and influence of the major figures of western philosophy from the greeks to the present

the second half of the 19th century saw a revolution in both european politics and philosophy philosophical fervour reflected political fervour five great critics dominated the european

intellectual scene ludwig feuerbach karl marx soeren kierkegaard fyodor dostoevsky and friedrich nietzsche nineteenth century philosophy assesses the response of each of these leading figures to hegelian philosophy the dominant paradigm of the time to the shifting political landscape of europe and the united states and also to the emerging critique of modernity itself both individually and collectively these thinkers succeeded in revolutionizing theology philosophy psychology and politics the period also saw the emergence of new schools of thought and new disciplinary thinking the volume covers the birth of sociology and the social sciences the development of french spiritualism the beginning of american pragmatism the rise of science and mathematics and the maturation of hermeneutics and phenomenology

vols for 1911 13 contain the proceedings of the helminothological society of washington issn 0018 0120 1st 15th meeting

harper s informs a diverse body of readers of cultural business political literary and scientific affairs
