this special issue is devoted to the topic of globalization one of the most emotionally charged terms in international business today while globalization is not really a new phenomenon advances in transportation and communications technology as well as decreasing trade barriers have increased the pace and magnitude of cross border interactions bringing them to the

forefront of discussion for scholars

an argument for retaining the notion of personal property in the products we buy in the digital marketplace if you buy a book at the bookstore you own it you can take it home scribble in the margins put it on the shelf lend it to a friend sell it at a garage sale but is the same thing true for the ebooks or other digital goods you buy retailers and copyright holders argue that you don't own those purchases you merely license them that means your ebook vendor can delete the book from your device without warning or explanation as amazon deleted orwell's 1984 from the kindles of surprised readers several years ago these readers thought they owned their copies of 1984 until it turned out they didn't in the end of ownership aaron perzanowski and jason schultz explore how notions of ownership have shifted in the digital marketplace and make an argument for the benefits of personal property of course ebooks cloud storage streaming and other digital goods offer users convenience and flexibility but perzanowski and schultz warn consumers should be aware of the tradeoffs involving user constraints permanence and privacy the rights of private property are clear but few people manage to read their end user agreements perzanowski and schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits but most important it would affirm our sense of self direction and autonomy if we own our purchases we are free to make whatever lawful use of them we please technology need not constrain our freedom it can also empower us

resources technology and strategy brings together contributors from europe north america and asia to consider the strategic relationship between technology and other resources such as production capabilities marketing prowess finance and organisational culture throughout the book these experts take a critical approach to rbp resource based perspective in order to assess both its strengths and weaknesses case studies also highlight the importance of both having and not having strong technological capabilities in settings as diverse as the us semiconductor industry small family manufacturing firms in hong kong and state owned enterprises in china
